ROMAIN CLARET

Master of Science HES-SO in Engineering
Software Engineering Specialization

www.claret.tech

NLP, Research & Teaching

Devoted and assiduous software engineer passionate about avant-garde technologies.
In particular, pipelines allowing grounded symbolics learning and machine reasoning.

EDUCATION

03/2020 – 09/2018 **MSc HES-SO in Software Engineering** — Prof. Dr. Jean Hennebert
Thesis: Multi-hop and Multi-turns Question-Answering Chatbot using Sub-Knowledge Graphs — CH
University of Applied Sciences and Arts of Western Switzerland (HES-SO), Lausanne, Switzerland — VD

09/2016 – 09/2013 **BSc HES-SO in Software Engineering** — ing. info. dipl. EPF Marc Schaefer
Thesis: Anonymous and Decentralized Browser-based Data Sharing Service — CH
University of Applied Sciences and Arts of Western Switzerland (HES-SO), Neuchâtel, Switzerland — NE

EXPERIENCE

09/2018 – 07/2017 **IT Independent** (Full-time)
Consulting for Blockchain and Autonomous Entities in domains of Automation, Finance, Art, Video Games, and Non-Profit Organisation. The tasks were to advise and suggest technologies, define project scopes, document, prototype, and prepare workshops.
Geneva area, Lausanne area, and Versicherix AG, Switzerland — CH
#Blockchain #SmartContracts #Python #MachineLearning #Tensorflow #NodeJS #IoT #HelpingStartups #ICO

06/2017 – 11/2016 **Co-Founder @ Blockchain-based InsurTech Startup** (Full-time)
In charge of Blockchain & Innovation, the tasks were to make software architectures, do high-level schematics for company products, project management, conduct workshops, prototype & implement software, and write documentation. Also participating in Startup tasks such as administration, fundraising, exhibitions, partnerships, and market studies.
Versicherix AG, Solothurn, Switzerland — CH
#Ethereum #SmartContracts #ERC20 #TOGAF #NodeJS #CI/CD #Azure #Python #MicroServices #Agile #PHP — SO

10/2016 – 12/2015 **Lead @ Open-Source consensus-based distributed file-hosting service** (Part-time)
Lead developer on an Open-Source project. The tasks were to make software architectures, prototype & implement software, write documentation, and do research.
Overclouds project, Neuchâtel, Switzerland (github.com/RomainClaret/OverClouds) — CH
#WebRTC #P2P #WebTorrents #NodeJS #Serverless #Distributed #Privacy #DistributedConsensus #Blockchain — NE

10/2015 – 10/2010 **Founder @ Streaming-based service for a multimedia library Startup** (Part-time)
Lead developer and executive at a media-services provider Startup. The tasks were to do prototypes & implement software, make digital rights management & software architectures, write documentation, build the business model, do market studies, do fundraising, create partnerships with Film Studios, and comply with copyright laws.
Libacy, Neuchâtel, Switzerland — CH
#NodeJS #PHP #Python #Cryptography #MachineVision #FilmAuthentication #FamilySharing #WebRTC #AWS — NE

08/2010 – 05/2010 **Internship @ Jenks Vestibular Physiology Lab** — Asst. Prof. Dr. Faisal Karmali (Full-time)
Design an experiment to identify a link between vision and the vestibular system. The tasks were to build in 3D the setup, construct the setup by adapting a hydraulic flight simulator, run Matlab simulations, experiment on human subjects, and interpret the results.
Massachusetts Eye & Ear Infirmary, Harvard Medical School, Boston, United States of America — USA
See poster 11/2010 — MA

Internships @ Watchmaking Industry (Full-time)
Manufacture Claret, Le Locle, Switzerland — CH, NE

04-08/2012 – ***Watchmaking research and development using 3D computer-aided design (CAD).***
06-08/2006 – ***Manufacturing, chamfering, and technical control.***
06-08/2005 – ***Disassembly, reassembly and customization of a mechanical pocket watch.***
06-08/2004 – ***3D CAD construction and technical drawing of watch movements.***

TEACHINGS AND CONFERENCES

02/2020 **Presentation**
"Demystifying Artificial Intelligence for future physicians"
Three hours lecture given to second-year physicians as part of their optional courses.
Université de Genève, Geneva, Switzerland — CH GE

11/2010 **Poster**
Karmali Faisal, Lim Koeun, Adatia Adil, Claret Romain, Nicoucar Keyvan, Merfeld Daniel M. Perceptual roll-tilt thresholds demonstrate visual-vestibular fusion. presented at the 40th Annual meeting of Neuroscience; Nov. 13–17, 2010; San Diego, CA.
Internship @ Jenks Vestibular Physiology Lab — USA CA

COMPLEMENTARY CURRICULUM

05/2010 09/2009 **Undergraduate @ Northeastern University** — *35 Undergraduate Credits*
Majoring in Physics and Mathematics, studied for two semesters.
Northeastern University, Boston, Massachusetts, United States of America — USA MA

05/2009 01/2009 **Extension School @ Harvard University** — *4 Undergraduate Credits*
Followed the class of Prof. Dr. Wolfgang Rueckner, Principles of Physics II (PHYS E-1B)
Harvard University, Cambridge, Boston, Massachusetts, United States of America — USA MA

08/2008 06/2008 **Summer School @ Harvard University** — *8 Undergraduate Credits*
Followed the class of Dr. Jonathan Weintroub, Laboratory Electronics (PHYS S-123)
Harvard University, Cambridge, Boston, Massachusetts, United States of America — USA MA
